History

The Office of Survivors Assistance (OSA) was established in October of 2008, and is the primary advisory to the Secretary of Veterans Affairs on all matters related to policies, programs, legislative issues, and other initiatives affecting Veterans' survivors and dependents.

How We Help

OSA honors the commitment made to our Veterans and military members by serving as a resource regarding all benefits and services furnished by VA to Survivors and dependents of deceased Veterans. OSA ensures that surviving spouses, children and parents of deceased Veterans have access to all applicable benefits and services under the law and serves as an advocate.

Throughout the next few pages you will see a variety of information on various programs, however due to space constraints, not everything is covered. OSA would like to encourage you to investigate further by visiting our Web site at www.va.gov/survivors.

Bereavement Counseling

VA Vet Centers provide bereavement counseling to all family members including spouses, children, parents and siblings of Servicemembers who die while on active duty. This includes federally activated members of the National Guard and reserve components. Bereavement services may be accessed by visiting www.vetcenter.va.gov.

Additional Counseling Options

Bereavement counseling is available through any Veterans Health Administration medical center to immediate family members of Veterans who die unexpectedly or while participating in a VA hospice or similar program, as long as the immediate family members had been receiving family support services in connection with or in furtherance of the Veteran’s treatment.

Financial Benefits

Dependency and Indemnity Compensation
- For a Survivor to be eligible for Dependency and Indemnity Compensation (DIC), the Veteran's death must have resulted from one of the following causes:
  - A disease or injury incurred or aggravated in the line of duty while on active duty or active duty for training.
  - An injury, heart attack, cardiac arrest or stroke, incurred or aggravated in the line of duty while on inactive duty for training.
  - A service-connected disability or a condition directly related to a service-connected disability.
- DIC may also be paid to certain Survivors of Veterans who were totally disabled from service-connected conditions at the time of death, even if their service-connected disabilities did not cause their deaths. The Survivor qualifies if the Veteran was:
  - Continuously rated totally disabled for a period of 10 years immediately preceding death.
  - Continuously rated totally disabled from the date of military discharge and for at least 5 years immediately preceding death.
  - A former POW who died after September 30, 1999, and who was continuously rated totally disabled for a period of at least one year immediately preceding death.
- Payments will be offset by any amount received from judicial proceedings brought on by the Veteran's death.

- The Veteran’s discharge must have been under conditions other than dishonorable.

Death Pension
VA provides pensions to low-income surviving spouses and unmarried children of deceased Veterans with wartime service.
- Eligibility
  - Spouses must not have remarried and children must be under age 18, or under age 23 if attending a VA-approved school, or have become permanently incapable of self-support because of disability before age 18.
  - The Veteran must have been discharged under conditions other than dishonorable and must have had 90 days or more of active military service, at least one day of which was during a period of war, or a service-connected disability justifying discharge.
  - Longer periods of service may be required for Veterans who entered active duty on or after September 8, 1980, or October 16, 1981, if an officer.
  - If the Veteran died in service but not in the line of duty, the death pension may be payable if the Veteran completed at least two years of honorable service.
  - Children who become incapable of self-support because of a disability before age 18 may be eligible as long as the condition exists, unless the child marries or the child's income exceeds the applicable limit.
  - A surviving spouse may be entitled to a higher income limit if living in a nursing home, in need of the aid and attendance of another person or is permanently housebound.

Home Loan Guarantees
- A VA loan guaranty to buy a home may be available to:
  - An unmarried spouse of a Veteran or Servicemember who died as a result of service-related disabilities.
  - A surviving spouse who remarries after age 57.
  - A spouse of a Servicemember officially listed as MIA or who is currently a POW for more than 90 days (limited to one loan).

- The surviving spouse or child of a Veteran who died from a VA-rated service-connected disability, or who at the time of death was rated permanently and totally disabled.
