

## WE HONOR VETERANS

Here at Crossroads Hospice in Independence, MO we have created a "Wall of Honor" to highlight and pay special tribute to some of the Veterans we serve. One of our Veteran to Veteran volunteers has quite the ability for photography and has been very generous with his talents. Volunteer Bob Fox has

created a unique portrait layout to showcase each Veteran for their service. The combined pictures show the Veteran's rank, where served, the insignia and medals received by the Honoree and are presented in beautiful frames. We also try to get a picture of the Wall of Honor sent to the families when their loved one is featured. Crossroads Hospice chose to display this as you enter our main offices and it makes quite an impression. Many times our very own staff pause in front of the wall and read about these current and past patients' service. We featured this in our August 2015 newsletter that we share with local care facilities and community businesses.

Crossroads Hospice which is a Level Four participant in your program, takes great pride in the care of our Veterans and this Wall of Honor continues to be a way to share their great legacy and service history. It is also a way to recognize the profound impact they have on the lives of their hospice team that provides care for them.
