North Carolina

Veteran Emphasis

Previously, didn't have a baseline from which to compare # of Veterans on our caseload or referral data but we are tracking that now.

We signed up for "WHV" on 2 Nov 2011. As of today I have not recieved a confirmation of my faxed agreement. I hope this program is not just hype and will assist our rural hospice with suggestions or material that will allow us to better serve our veterans. I am the volunteer coordinator and a retired 22 year Navy veteran with a 60% disability rating. I have some idea of the issues our veteran patients face and would like for this program to succeed.

Haven't seen a difference necessarily in number of Veterans served, no increase, no decrease.

Attended the free WHV seminar in Sept. 2011 in Concord and realize the importance of the WHV program. Expect to intiate a 'Recruit' status soon.

VA / Community interface

Our Volunteer Coordinator is a retired naval officer.

Considering we are a rural hospice, this program has provided an inlet to promote hospice awareness amongst our veterans and within the community. However, I do wish there was a proactive response reciprocated from the local VA medical units.

I didn't realize until I took this survey how unprepared we are to better serve our veterans.
